^{1/} Types 11-37 are reported on the basis of packed weight. 2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

^{3/} The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales-weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.
